

Dear prospective customer,

In today's economy of domestic and global competition and increasingly innovative technology, you need a Web & Graphic Designer with the vision, scope and passion to bring your projects to fruition.

With over 16 years' history in web design & graphic arts in positions of increasing responsibility - beginning with my own small, family-owned company and leading to Chairing the Communications team for the Aurora Jr. Woman's Club - I offer that vision and scope.

I pride myself in my ability to become fluent in new technology and industry. I am multilingual (Spanish and English), and present a strong record of providing decision team leadership and direction. I am both a left and right brained thinker, possessing an abundance of creativity in addition to analytical project management skill set, which will be a strong asset to your team either on a contractual or employment basis.

My passion is providing an engaging and productive visual presentation for a variety of medias. My style is participatory and one that involves my entire team. I look forward to discussing with you how I can use my experience and knowledge to further the mission of your company.

Sincerely,

Mary Weis
